

XPRESSPAX™
Intelligent Media Storage™

MasterpaX™

Solutions That Expand to Fit Your Needs

Introducing **MasterpaX**, our most comprehensive product expansion since the introduction of our original line of *Intelligent Media Storage Solutions*. The **MasterpaX** family of containers offers a huge range of sizes and configurations that will expand as your data expands. **MasterpaX**. Safeguard every bit.

MISSION CRITICAL DATA STORAGE SOLUTIONS

Mission-critical data storage is simple with the full line of products from the world's leading media storage container company.

From laptops to servers to work stations, companies need a secure transport and storage system for more than just tapes and hard drives. XpresspaX offers a full line of military-grade containers for storing and transporting your valuable IT assets. Designed with security and physical protection in mind, XpresspaX Intelligent Media Storage products protect your valuable hardware and data storage media, whether it's being archived or is an integral piece of your disaster recovery plan.

MasterpaX containers offer an air-tight, water-tight and tamper-resistant product line that will give you the flexibility and confidence you need to standardize all of your IT component storage. The XpresspaX foam insert system allows you to form fit your components in endless configurations resulting in the most cost-effective, shock-resistant, and space-efficient storage system available.

MasterpaX standard features include interlocked stacking capability, locking latches and air and water-tight seals. Most containers have retractable handles and corner wheels. Find additional information and application ideas at xpresspax.com
