

XPRESSPAX™ PROVIDES A FULL LINE OF CONTAINER SOLUTIONS TO MEET YOUR GROWING TRANSPORTATION AND STORAGE NEEDS. FROM LAPTOPS TO SERVERS, XPRESSPAX CAN DESIGN AND DELIVER CUSTOM-FIT SOLUTIONS TO PROTECT ANY OF YOUR DEVICES.

WE PROVIDE DURABLE, FOAM-LINED PROTECTIVE CONTAINERS TO MATCH YOUR REQUIREMENTS—ANY SHAPE, ANY SIZE, TRAVELING ANY DISTANCE.

XPRESSPAX CONTAINERS ARE ISTA-CERTIFIED TO WITHSTAND VIBRATION AND SHOCK
 International Safe Transit Association (ISTA) defines how packages should perform to ensure protection of their contents. XpresspaX containers passed ISTA tests for vibration and shock.
 • Vibration test: 55 minutes, more than 1,400 impacts. **Test result: PASS**
 • Shock test: 10 free-fall drops from 10 different angles. **Test result: PASS**

IEC-CERTIFIED TO RESIST PENETRATION
 The International Electrotechnical Commission (IEC) defines how packages should protect against penetration by water or solid objects. XpresspaX containers passed IEC Level 4 tests for water penetration and intrusion by very small objects.
 • Water test (Level 4): 10 minutes under oscillating spray. **Test result: PASS**
 • Intrusion test (Level 4): 1mm probes test gaskets and seams. **Test result: PASS**

AVAILABLE MEDIA INSERTS FOR XPRESSPAX™ CONTAINERS					
PRODUCT DESCRIPTION	SKU	CAPACITY		PRODUCT NOTES

THE XPRESSPAX™ INTELLIGENT MEDIA STORAGE SYSTEM

The XpresspaX™, Inc. interchangeable color-coded media tray insert system is a unique storage method that allows you to use the same size containers for nearly any media available—including tapes, CD/DVD and hard drives.

The XpresspaX system provides a clear advantage over the limiting approaches of most competitors. Our “one size fits nearly everything” system offers you flexibility and ease of use for all your off-site or in-house media transportation and storage needs.

Whether you need an off-the-shelf solution or have a custom data storage requirement, XpresspaX systems have you covered. It's easy, it's quick and it's what we do every day.

Key advantages of the XpresspaX system:

- Secure and weather-resistant container design.
- Purpose-built trays ensure the ideal fit for any media.
- Common tray size fits all of our containers.
- System compliant with nearly all current media storage and transit standards.
- Media-specific inserts are designed to maintain tape manufacturers' recommended storage orientations. Containers can be stored in either of two orientations—horizontally (on their base) or vertically (on their spine)—which keeps media on its proper axis.
- Quick, convenient customer service for unique challenges and custom applications.

Designed and manufactured in the USA using custom-formulated high-strength resin, our containers withstand significant impact and protect your media through normal transit and storage situations. XpresspaX delivers the best quality and value you'll find anywhere.

And because we value the trust placed in us with every purchase, XpresspaX warrants each of our products to be free of any defects in materials and workmanship for 10 years from the date of sale.

XPRESSPAX™

Our extremely rugged, lockable, foam-lined **MasterpaX™** allows you to ship loaded XpresspaX containers to your storage vault, or between locations. Also available for servers and workstations.

XpresspaX offers a complete system of interchangeable insert trays and containers to suit any data storage need. All inserts are standard sized to fit in all single or double containers.

Master Lock.
Master lock distributor.

DUAL TRAY CONTAINER

With the same high-impact absorbing customized resin we use in our single box, this container is built to last. And it's just as easy to use, carry and secure.

DIMENSIONS

Ext: 27" x 11.5" x 5.9" Int: 25" x 10.25" x 5"
Weight empty: 6.5 pounds

Strong, positive double latching system with butterfly clasps and lockable hasps. Latches are riveted to container along with a strong metal backer plate. (Locks not included.)

- 1) Ergonomic molded handle is metal riveted to container.
- 2) Oversized bumper protects container.
- 3) Sturdy, comfortable grips for carrying.

SINGLE TRAY CONTAINER

We use high-impact absorbing customized resin that takes a beating. Drop it. Hit it. Kick it around. This container is built to last.

DIMENSIONS

Ext: 14.75" x 11.5" x 5.9" Int: 12.25" x 10.25" x 5"
Weight empty: 3.5 pounds

Strong, positive double latching system with butterfly clasps and lockable hasps. Latches are riveted to container along with a strong metal backer plate. (Locks not included.)

- 1) Ergonomic molded handle is metal riveted to container.
- 2) Oversized bumper protects container.
- 3) Sturdy, comfortable grips for carrying.

XPRESSPAX™ ALSO OFFERS THE INNOVATIVE **MINI** SOLUTION TO THE INCREASINGLY FREQUENT DATA STORAGE TRANSFER OF SMALL QUANTITIES OF MEDIA.

MINI CONTAINER

Made from the same high-impact absorbing resin used in our larger containers, but purpose built for compact portability.

DIMENSIONS

Ext: 11.25" x 7.5" x 6" Int: 9" x 5.5" x 5.5"
Weight empty: 2.25 pounds

Strong, positive single-latching system with butterfly clasp and lockable hasp. Latch is riveted to container along with a strong metal backer plate. (Locks not included.)
